SKILLS

Languages:	C, C++, Python, Java, SQL
Databases:	MySQL, PL/SQL, MongoDB
Tools/Platforms:	VS Code, Git, GitHub, Excel, Power BI
Core Concepts:	Data Structures & Algorithms, Operating System, OOPS, DBMS, Computer Networks
Soft Skills:	Leadership, Teamwork, Adaptability, Perseverance

PROJECTS

GramiLearn AI-Powered Learning Assistant | [GitHub](#)

June 2026

- Built a full-stack AI learning platform using Flask and OpenAI GPT for explanations, diagrams, and MCQs.
 - Developed REST APIs for AI queries, diagrams, text-to-speech, and personalized resources.
 - Created a responsive bilingual (English/Hindi) interface with offline notes and dynamic resource cards.
 - Integrated NCERT, YouTube, and Wikipedia resources with prompt engineering, JSON parsing, and caching.
- Tech: Python, Flask, OpenAI API, JavaScript, HTML, CSS

AI Code Reviewer & Security Scanner | [Github](#)

Jan 2026

- Developed an AI-powered code analysis tool using **JavaScript and Gemini API** to identify syntax errors, **SQL injection/XSS vulnerabilities**, and potential performance bottlenecks.
 - Engineered **structured prompt templates and JSON-based outputs** to generate code-quality scores, severity-tagged issues, and **time/space complexity analysis**.
 - Built an interactive code-review interface with **syntax highlighting, test cases, and AI-powered code refactoring**, and deployed the zero-backend application using **GitHub Pages**.
- Tech: *HTML, CSS, JavaScript, Gemini API, GitHub Pages*

Skill Gap Analyzer | AI-Powered Career Guidance Platform | [GitHub](#) | [Live](#)

Sep 2025

- Developed an AI-powered platform that compares a user's current skills with target-role requirements to identify skill gaps and calculate overall role alignment.
 - Integrated **Gemini AI** to generate personalized learning roadmaps based on the user's target role, existing skills, identified gaps, and knowledge base.
 - Built dedicated skill-analysis and knowledge-base modules with searchable skills, technical analysis, learning resources, and saved roadmaps.
 - Designed a responsive, user-friendly dashboard with **multiple themes**, interactive workflows, and action-oriented learning recommendations.
- Tech: HTML, CSS, JavaScript, Gemini API, GitHub Pages, Java

TRAINING

Social Entrepreneurship Internship – Younity | [\(Link\)](#)

Mar 2026 – Apr 2026

- Collaborated with a distributed team of student interns to plan and execute community-focused social entrepreneurship initiatives.
- Coordinated tasks and project timelines to ensure assigned deliverables were completed on schedule.
- Engaged with community stakeholders to understand program needs and support outreach efforts.
- Engaged with community stakeholders to understand program needs and support outreach efforts.

CERTIFICATES

Social Entrepreneurship Internship — Younity	Apr 2026
C++ Programming (40 Hours)	Jan 2026
Introduction to Generative AI	Nov 2025
Effective Time Management	Oct 2025

ACHIEVEMENTS

- Secured 7th position in Algo-N-Hunt among 100+ competing teams.
- Participated in Hack-Adhyaay 2025, a national-level hackathon.
- Participated in Code Caravan 3.0, featuring 200+ teams.
- Served as a CyberSmart Volunteer promoting cybersecurity awareness.

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering; CGPA: 8.21	Phagwara, Punjab Since Aug 2025
Montessorie Cambridge School Intermediate; Percentage: 79	Raja-ka-Bagh, HP Apr 2024 - Mar 2025
Montessorie Cambridge School Matriculation; Percentage: 87	Raja-ka-Bagh, HP Apr 2022 - Mar 2023
